

RUN THE WATER™

Inspired by a long-standing tradition of innovation and craftsmanship, the 2024 Yamaha Boats combine standard-setting performance and reliability with all-new features that conjure a sacred connection to the water. New to the 2024 lineup, and exclusive to the 255 FSH Sport H, is Helm Master EX, a multi-function joystick allowing for improved low-speed maneuverability. In addition to this, boaters can look forward to the newly introduced 1.9 Liter High output Yamaha Marine Engine on select models, allowing you to #RunTheWater more confidently than ever. Whether the day calls for family fun, watersports, or an enticing fishing expedition, Yamaha Boats empower you to discover your love for the water.

WHY YAMAHA

Discover why boaters continue to choose Yamaha Boats over other brands

#1 Marine Engine Brand in the World

UNMATCHED PERFORMANCE AND POWER

Yamaha has been building marine engines for over 65 years, with an unrivaled reputation for reliability, durability, and performance. No other jet boat brand matches Yamaha's marine engine-building experience and expertise.

YAMAHA TOTAL PACKAGE

EVERYTHING COMES STANDARD

Yamaha boats come fully equipped with a total package of features and amenities that other brands offer at an additional expense, making the Yamaha ownership experience easier and more affordable to get out on the water and have fun. Amenities include a trailer, folding towers for easier storage, premium stereo systems, and removable floormats.

Unrivaled Peace of Mind

IDEAL WATERFRONT PROPERTY

Due to the propellers of Yamaha's propulsion system being housed internally, the entire stern area can be used as a water-level swim platform, allowing swimmers to get in and out of the water with ease.

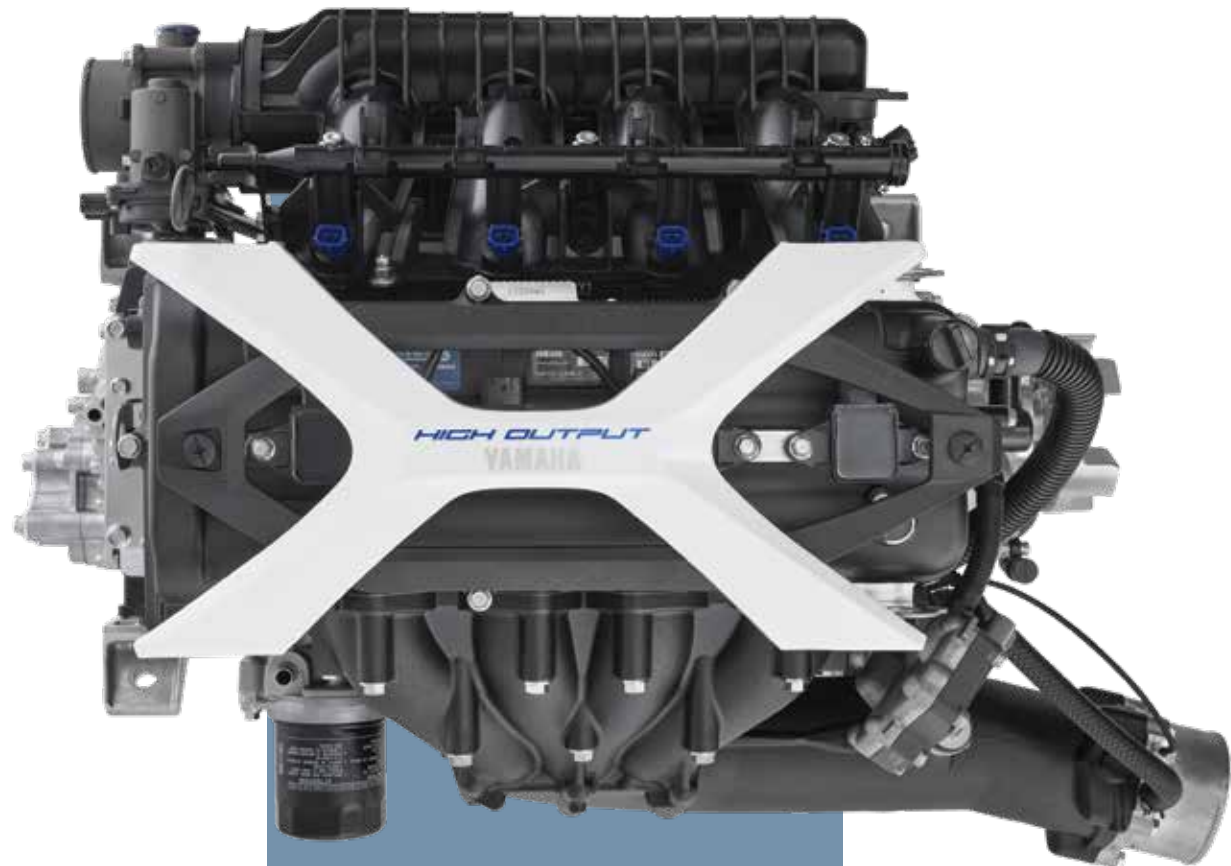

All Yamaha Bow to Stern

WORLD CLASS MANUFACTURING

Yamaha is one of the few boat manufacturers in the world that build all major boat components in-house, with the engine, jet pump, and hull optimized to the length and weight of each specific model.

INTRODUCING THE ALL-NEW 1.9L HIGH OUTPUT YAMAHA MARINE ENGINE

Introducing the all-new 1.9 Liter High Output Yamaha Marine Engine. Replacing the Yamaha 1812cc High Output motor, Yamaha’s new engine is more powerful, while providing a quicker and smoother acceleration and a higher top speed. The increased displacement and optimized intake create a stronger torque you’re sure to appreciate. Allowing you to do more without sacrificing performance, let Yamaha’s all-new engine power your next adventure.

SPECIFICATIONS		
TYPE	INTAKE	DISPLACEMENT
4-cylinder, 4-stroke, 16-valve	Naturally Aspirated	1898cc
COOLING	FUEL GRADE	OIL CAPACITY
Open Loop	Regular Unleaded	2.6L

BENEFITS		
IMPROVED PERFORMANCE	EASE OF MAINTENANCE	MODERN APPEAL
+ Noticeably smoother idle	+ New design moves electronics in board for better protection during service procedures	+ Black coating added to engine cover and exhaust manifold for sleek look and corrosion resistance
+ Higher top speed through increased displacement and optimized intake		+ First Yamaha-manufactured part to include plant-derived cellulose nanofiber (CNF) touting excellent material recyclability and reduced use of plastics
+ Smoother, quicker throttle response due to removed taper on throttle body	+ Reduced fastener count and newly designed engine parts	
+ 10% larger throttle body for more power and torque	+ Easier-to-access crankcase anode and new intake manifold design with long runners and flatter outside shape for easier engine removal	FEATURED IN SELECT 2024 19', 22' and 25' Series Boats

LOW-SPEED MANEUVERABILITY WITH THE TOUCH OF A JOYSTICK

Building upon Yamaha's rich history of forward-thinking innovations, we proudly present Helm Master EX, an intuitive technology now available on Yamaha Jet Boats. With its multi-function joystick, Helm Master EX unlocks a whole new level of low-speed maneuverability, allowing drivers to effortlessly navigate forward, backward, sideways, and even rotate with a simple touch. Exclusively available on the new 255 FSH Sport H model, Helm Master EX provides anglers with the edge needed to maneuver in and out of your favorite fishing spot, while making docking a breeze. Experience the next evolution of precision with Helm Master EX, a testament to Yamaha's commitment to advancing boating technology.

DRIVE

Experience the pinnacle of low-speed maneuverability with Yamaha's cutting-edge DRiVE technology. Available on select 22FT models, DRiVE offers intuitive control using paddles, allowing you to effortlessly move forward and reverse without taking your hands off the wheel.

INTRODUCING THE NEXT EVOLUTION IN DRiVE® TECHNOLOGY

DRIVE X

Take it to the next level with DRiVE X, now available on select 25FT and 27FT models. Building upon the DRiVE dual paddle control system technology, DRiVE X introduces a series of button controls to the steering wheel, offering enhanced functionality. With DRiVE X, drivers can effortlessly pivot 360° on axis, maneuver forward, backward, or even sideways with ease, and utilize Dock Hold to securely hold the boat in position for quick loading and unloading of passengers. Yamaha redefines low-speed maneuverability with DRiVE and DRiVE X, setting the standard for effortless control on the water.
